

2018 EUROPEAN MEETING OF ISMPP

Advancing Medical Publications in a Complex Evidence Ecosystem

At the 2018 European Meeting of ISMPP, we will continue to work with multiple stakeholders to expand and further contextualise our understanding of evolving transparency requirements in a complex multi-stakeholder publishing environment.

Featuring hot topics including operational challenges of data transparency, how to build successful partnerships to drive fast and transparent medical publications of company-sponsored research, key challenges and opportunities of BREXIT on research funding, cross-border R&D and collaborative publishing, attendees will benefit from the participation of speakers from different backgrounds. The meeting will continue to host the poster and networking reception, roundtables on various cutting-edge topics and "speed research". As always, attendees will find state-of-the-art exhibits and ample opportunity for collaborative exchange and networking. **We look forward to seeing you in London!**

TUESDAY, 23 JANUARY – DAY 1													
09:00	REGISTRATION & BREAKFAST WITH EXHIBITORS												
10:00	<table border="1"> <tr> <td>WELCOME</td> <td>Fiona Plunkett</td> </tr> </table>	WELCOME	Fiona Plunkett
